Prospect, Oregon  
Crater Lake Highway Forty Miles  
from Medford

## Advice About Rock Gardens

We are glad to help with any problems at any time, and can heartily recommend "My Wild Garden" and "Taming the Wildling" by Herbert Durand, and "The Rock Garden" by Lousie Beebe Wilder, as best authorities in Eastern United States.

For information as to the value for garden use of western native plants, read "Western American Alpines," by Ira N. Gabrielson. If you would like to climb our mountains and see our lovely wildlings in their homes, but cannot do so, take a trip at second hand with Dr. Gabrielson. You will find him most delightful company, and through his appreciative eyes will be able to enjoy and estimate them at their best. Order from me. Price \$3.50.

"Hardy Californians," by Lester Rountree is equally valuable and interesting. It brings sixty-four photos of unusual native beauties, many of them offered in this catalog. Hundreds more are described and their real value and needs told by one who knows. Order from me. Price \$3.50.

"Rock Garden and Alpine Plants," by Henry Corrovon, of Switzerland, is undoubtedly one of the best in the world, and at the new low price should be had by all. Price \$3.00. Order from me.

## Oregon Wild Flowers

Seeds—Seeds of many varieties can be furnished at 25c per packet. In ordering seeds, please list some substitutes that may be sent in case of shortage. Plants in this list are so rare that the supply is uncertain. Small packets, 5c.

Numbers (00) indicate height by inches.

The price for a dozen is ten times the price for single plants. Half dozens are sold at dozen prices. All are packed free of charge, and post-paid.

Our prices are cash with order, and we will send C. O. D. to reliable persons.

Small orders receive the same attention as large ones. Do not hesitate to write us if you only wish one item. Also, we will be interested to hear about the wild flowers growing in your locality. We make exchanges and buy desirable wild plants and seeds. We give a discount on large orders from parks, colleges, etc., and a trade discount to dealers. Write for wholesale prices.

Address all orders to Clarice Nye, Prospect, Oregon.

### Native Plants Suitable for Dry Garden in Sun unless Otherwise Stated

Each	
Anemone Deltoides, purest white colors for shade	.15
Baldensis, a beautiful light blue	
alpine, (10)	.50
Lyallii (4) pastel shades, requires	
acid soil in shade	.25
Occidentalis, Chalice Cup, milk white,	
fernly leaves	.50

Oregana, white with blue tints	.40
Acid soil in shade required	
Pulsatilla, pasque flower	.35
<b>Abronia latifolia</b> , yellow sand verbena, creeper from sea beach, Umbellata, pink, seeds of both.	
<b>Actea spicata</b> var. <i>arguta</i> (30), nice foliage white fl. and red berries in fall. Shade best	.35
<b>Apocynum pumilum</b> , pink fl. and leaves turning yellow in summer (8)	.25
<b>Aquilegia formosa</b> , scarlet and gold	.25
Long spurred hybrids, mixed colors	.25
Dwarf rock garden species, mixed	.25
Hoop Petticoat, double in many colors	.25
Many types mixed, seeds of all.	
<b>Arabis Lyallii</b> , pink fl. for sh. rocks	.25
Purpureus, deep pink, very dwarf	.25
<b>Armeria artica</b> , deep pink (6)	.25
<b>Arenaria caespitosa</b> , a lovely mossy ground cover with tiny white fl.	.25
<b>Aster alpina</b> , not native, large blue	.25
Native, blue (6), (12) purple (15)	.25
<b>Aster</b> New Dwarfs not native,	.30
Countess of Dodley, bright pink	
Lady Henry Maddocks, light pink	
Lilac Time, lovely soft lilac	
Marjorie, bright rose pink	
Snow sprite, semi-double white	
Victor, clear lavender blue	
Mauve Cushion, only six inches high	
<b>Aster Michaelmas Daisy</b>	.20
Feltham blue, Novae Angliae, violet purple	
Perry's White, small stars with yellow center	
Mrs. Raynor, reddish; St. Egwin, pink	
Very large blue and semi-double purple	
Native blue from Oregon sea coast	
<b>Arenaria Montana</b> , close gray tufts with white flowers in early spring	.20
<b>Ajuga reptens rubra</b> , red leaves, blue fl.	.15
<b>Agrostemma coronaria</b> , mullen pink, downy leaves and deep rose purple fl. (15)	.15
<b>Asclepias tuberosa</b> , orange Butterfly weed	.25
Speciosa taller, with white leaves and pink flowers, not so showy (36)	.15
Mexicana, more slender, pink fl. (24)	.25
<b>Antennaria rosea</b> , flat gray leaves, pink fl. (3)	.25
<b>Asarum caudatum</b> green leaved ginger also listed with the bog plants	.25
Hartweggi, mottled leaved ginger, sh.	.25
Lemmonii, similar but better	.35
<b>Astragalus purshii</b> var. <i>tinctus</i> , a desert pea that makes a little flat mat of pretty leaves decked with purplish red flowers. Later pods are covered with dense wool and on opening like a black beak with the shiny seeds like eyes appear like birdlings in a nest. Called wolly lambs. Seeds only.	
<b>Artemesia abrotanum</b> , Old Man, finely cut fol- iage, pleasantly scented (18)	.25
<b>Artemesia</b> species, name not known (18), stiff white foliage, yellow flower	.25

Boltonia, white asteroides, not native.....	.20
Boykinia elata and major for moist shade.....	.25
Brunella vulgaris (6) deep lavender .....	.15
Atropurpurea, deep purple .....	.25
Balm, Mountain, Eriodictyon Californica, called by the Spanish Yerba Santa. Dried leaves per oz. 15c; roots .....	.50
Balm, Monardella, scented leaves and pretty lavender flowers .....	.15
Buckwheats, see Eriogonum	
Callirhoe involucrata, trailing poppy mallow, a beautiful vine that will cover a space four or five feet across in any good situation.....	.25
Calamintha alpina, not native but a very pretty plant with purple fl. (6).....	.25
Chrysanthemum, pink cushion, dwarf variety that begins blooming in July and continues all season .....	.25
Yellow to rose, less than a foot high.....	.25
Calandrina umbellata, needs dry soil, a crimson purple flower opening in the afternoon (6)..	.25
Calypso borealis (bulbosa) Fairy slipper, a beau- tiful pink orchid found only in shady woods. Soil and moss with bulb .....	.25
Campanula Scouleri, (4) light blue lily shaped bells, for woodsy banks .....	.25
Species, probably a variety of the above but much more free blooming. Our name for it is Multiflora. Seeds.	
Rotundifolia, from Washington State.....	.15
Species, possible a variety of above but smaller from Siskiyou Mts. (4) .....	.35
Castilleja mineata (10) Indian Paint Brush showy in very dry situations in sun .....	.15
Carum Oreganum, white lacy flower (15), tubers prized for food by Indians .....	.15
Chrysanthemum leucanthemum, white daisy with golden center, hardy and long bloom- ing (15)	
Coptis lacinata, yellow flower with varnished fern leaves, pretty in dry woods (5).....	.25
Cornus Canadensis, bunch berry (4). This is very pretty with its white Dogwood flower and red berries but is hard to grow. Re- quires acid leaf mold near water in shade....	.25
Corydalis caseana, white flowers, ferny leaves Aurea, yellow, .....	.25
Cotyledon Californica, thick leaved rosettes.....	.25
Oregana, larger and whiter, neither hardy for hard freezing, found on sea cliffs .....	.25
Cynoglossum grande, a lovely blue flower on a tall, coarse plant (25) .....	.25
Cypripedium Californica, a bog orchid with many cream white flowers, less finicky than these following but requiring moisture .....	.50
Montanum, large pinkish ladyslipper, shade..	.50
Fasciculatum, small pink and brown fl. (8)....	.50
Darlingtonia Californica, the beautiful Western Pitcher plant. This is very desirable but dif- ficult to grow. I am told it succeeds if set where it can have a constant supply of water containing ammonia .....	.25 to 1.00

<b>Delphinium</b> Andersoni, blue. Seeds only (24).	
Columbianum, a beautiful deep blue (12)....	.25
Menziesii, deepest purple blue with white bee and spotted leaves (6) .....	.15
Nudicaule, orange to red (18)	
Parryii, blue, seeds only (24)	
Parishii, white to purple. Seeds only	
Scopulorum, very tall, purple blue, for moist soil in shade .....	.25 to 1.00
<b>Dentaria</b> Californica, very early bloomer, white bell shaped flower round dentate leaf (5) called Spring Beauty here .....	.15
Macrocarpus, larger, from Siskiyou Mts. ....	.15
Tracyii, lavender with purple leaves .....	.15
<b>Dicentra</b> Formosa, plamy bleeding heart, beauti- ful foliage .....	.15
Oregana or Glauca, silvery leaves and cream: flowers with purple tips .....	.50
<b>Douglasia</b> laevigata, cutest alpine .....	.50
<b>Digitalis</b> , (4 to 6 feet) Fox Glove, many colors....	.25
<b>Dodocatheon</b> Alpina, (6) prefers moist situation	.50
Hendersonii, (6) a beautiful rose to crimson primulaceae, blooming very early in the spring. Good in the rock garden .....	.15
Jeffreyii (12) a later bloomer called Sierra Shooting Star, light pink .....	.25
<b>Epipactus</b> Gigantea, for moist shade .....	.20
<b>Erigeron</b> Radicatus, (2) deep blue or purple, free blooming .....	.35
Compositus Var. trifidus, (4) white flower ...	.35
Folicosus var. compositus, (6) light blue .....	.25
Salsuginosus, (10) large Alpine daisy .....	.25
Glaucus, very dwarf, large flowered .....	.25
Species from the coast, covered with large blue flowers in autumn, similar to Michael- mas Daisy .....	.25
<b>Evening Primrose</b> , see <i>Oenothera</i>	
<b>Eriogonums</b> are fine for the rock garden. Dry situation. Seeds best as they are hard to transplant. Flowers are in clusiters and dry perfectly for winter bouquets. Dry sunny sit.	
Compositus, cream white in four to six inch clusters. Seeds only.	
Douglasi, yellow flower. Plant, a fine thick, neat, gray white foliage. Seeds only.	
Nudum, (18) white flower on slender stem....	.25
Sulphureum, Same but yellow .....	.25
Umbellatum, (6) large yellow flower .....	.25
Species variety of above, red flowers. Seeds only.	
Ovalifolium (3) everblooming alpine pink....	.50
Species. Wild Pink Buckwheat, a beautiful late annual. Seeds only.	
<b>Eriophyllum</b>	
Ianatum, green foliage, white beneath.....	.25
Ceaspitosum, (8) Oregon Sunshine, yellow flower, white foliage .....	.15
Species, (4) felty white foliage, Alpine .....	.50
<b>Erysimum</b> aspernum, (12) Western Wall Flower, yellow .....	.15

### Ferns

Very dwarf ferns suitable for rock garden. The roots should have a nice pocket of soil well protected by a large stone to conserve moisture and thus they will face full sun.	
<i>Chelianthes Gracillima</i> , (5) lace fern, dainty, clump .....	.25
<i>Cryptogramma Acrostichoides</i> , (3) parsley fern .....	.25
<i>Gymnogramme triangularis</i> gold fern (6) .....	.25
<i>Pellaea brachyptera</i> , (6) evergreen fern, like a sprig of fir .....	.35
<i>Woodsia Oregana</i> , (5) very dainty and fra- gile. Drys down in summer, reappearing in early spring .....	.15
<i>Lomaria Spicant</i> , the Deer fern for moist shade .....	.25
<i>Pellaea densa</i> , the daintiest and also the hardiest dwarf fern .....	.25
<i>Filix-fragilis</i> , a delicate little beauty, a bit larger than <i>Woodsia Oregana</i> .....	.15
<i>Polypodium Occidentale</i> , licorice fern, pre- fers a mossy stone for a home .....	.15

### Larger Ferns

<i>Polystichum Lonchitis</i> , Holly Fern, a love- ly evergreen fern for shade only .....	.50
<i>Polystichum Munitum</i> , large sword fern .....	.25
<i>Polystichum imbricans</i> , small sword fern for dry rock garden .....	.25
<i>Pteris aquilina</i> var <i>lanuginosa</i> breaken, for a shady spot. This makes a tall back- ground .....	.15
<i>Dryopteris Arguta</i> , (18) evergreen shield fern .....	.25
<i>Asplenium felix-foemina</i> , lady fern, moist shade. Each .....	.25 .50
<i>Woodwardia Radicans</i> , great chain fern, very large, requires moisture and shade. Each .....	.25 .50 1.00

We have many other nice ferns not yet classified.  
Write us your wants.

<i>Fragaria</i> , wild strawberry from beach, glossy leaves, red runners, nice berries .....	.15
Wood strawberry, large flowers .....	.15
<i>Gentiana Affinis</i> , a very nice little gentian with very dark blue flower, freely borne, moist soil .....	.35
Species. probably variety of above. Large, free-flowering, for dryer soil. As many as eight large striped upturned bells open at one time .....	.50
Our name for the above is <i>Multiflora</i> for its freedom of bloom	
<i>Nye's New Florenciana</i> , a fine variety we have been unable to find described. It is a lovely deep dark blue and likes a black bog soil by a mountain brook .....	.50
<i>Newberryi</i> , a rare, low-growing large flow- ered sort, a fine deep blue (3) .....	1.00
<i>Orfordii</i> , (24) a taller sort with several nice, medium blue flowers .....	.50

<i>Geranium incism</i> (Fremonti) needs shade. Flower large purple pink (25)	.25
Richardsoni, large pure white (24)	.50
<i>Gilia aggregata</i> , scarlet gilie flower or trumpet phlox, nice dwarf cut leaved plant that runs up to three feet with many bright but dainty flowers, the second year (8-20)	.15
Pungens (Leptodactylon) a little beauty nearly like Phlox Douglasi	.50
Nuttallii, White, night blooming	.50
This is interesting but not so beautiful.	
It is a desert plant.	
<i>Goodyera Menziesii</i> , mottled green and white leaves, shade	.15
<i>Gormania Watsoni</i> or <i>obtusatum</i> (6) white flower, a plant very nearly related to the Sedums and as good for dry or moist rock work	.25
Rhodiola, or laxa, red flowered. Plant very nice	.35
<i>Hesperochiron pumilus</i> , a tiny white-flowered damp-lover. Blooms very early	.25
<i>Heuchera micrantha</i> (12), spray of white flowers, begonia-like leaves which color nicely..	.25
Gabella, green leaves, good for dry rock work	.25
<i>Hulsa nana</i> , (4) sun flowers large as a dollar with ruffled hairy leaves. Sand in full sun on mountain tops. Seeds only.	
<b>Irises.</b> Our native irises should have the care of any fibrous rooted plant. Are not so hardy, as those with large rhizomes. After becoming established they will endure as much hardship as ordinary perennials.	
Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green.....	.25
Species, our name, Nye's Iris Selma, smaller than above but with as large and even finer flowers (8)	.35
Chrysophylla, white or cream with very dainty tints and veining (6)	.15
Californica, varied colors (6)	.25
Douglasiana, the beautiful iris, so plentiful along the Oregon Coast where it is found in every shade of light blue, orchid, lavender or white. (18)	.25
Cristata, a lovely light blue dwarf from North Carolina (5)	.25
Innominata. The finest yellow western iris, a deep buttercup gold on stiff stems six to eight inches high. Foliage narrow and deep green. From dry rocky hillsides.	1.00
Gold River, a variety of the above still smaller and a beautiful orange in some specimens	1.00
Sunset, a slightly less yellow form. Seeds only.	
Hybrids Innominata x Chrysophylla. Seeds and plants 1937 autumn	
Hybrids Chrysophylla x tenax. Seeds only.	
Missouriensis (18) white or light blue lined with blue. Moist soil, alkaline	.25

Tenax. This is one of our best as well as most varied in color coming from white to deepest blue and rarely in lilac and orange.	.25
Thompsoni. This is a lovely little thing oftened by others as a color variation of <i>I. Innominatea</i> . We found it and offered it as <i>I. delight</i> but Prof. Thompson of Seattle had beaten us; we hereby give him credit and he allows us to be the first to offer it under his name. It is a lovely orchid and forms a dense mat of narrow green foliage, quite distinct	1.00
Lineafolius. This is our own name for a very dainty little white iris with foliage only a line wide and very sparse. Stems wiry, six to nine inches high	1.00
Louisiana wild iris. These are very interesting and have proved hardy here. Burnt orange and blue	.50
Versicolor, native blue iris from Wisconsin	.25
<b>Juniperus</b> —see tree and shrub list.	
<b>Leucocrinum montanum</b> , pure white sand lily, clump	.40
<b>Lewisia</b> —The evergreen varieties are often listed as <i>Orebroma</i> and include all except <i>rediviva</i> and <i>oppositifolia</i> . These are our very best rock garden plants requiring good drainage and full sun, but not south exposure in California. Roots should have good protection under large rocks, and no irrigation. Coarse sand or broken rocks around the plant on surface to prevent damping off.	
Columbianum, has narrow leaves and small flowers. This bloomed the whole summer and fall in my rock garden. Flower white	.25
Columbianum var. rosea. Pink	.25
Cotyledon, slender leaved rosette and white flower, veined pink	.25
Finchii, one of the best. Have counted over five hundred florets from one plant in a season. Striped pink flowers	.50
Nye's new variety of Finchii, still larger with a clear pink flower	.50
Hecknerii, a fine new one with saw-edged leaves; flower pink striped with white	.35
Howellii, leaves of the rosettes, ruffled and crested, flower deep rose striped with white	.35
Ingramii, a variety of Howellii, equally good	.35
Leana, narrow leaved evergreen plant flower a many blossomed spray	.25
Nye's Dwarf Rose variety of above with larger semi-double flowers on short stem and of a fine bright rose	.50
Eastwoodiana, very similar to above but pure white. Very rare	.50
Seeds of Eastwoodiana, 5c each	
Whiteii, of this group but has a longer spearshaped leaf	1.00

Seeds, 5c each.	
Tweedyii, largest and one of the loveliest of this family. Very long blooming. Color, peach to salmon pink. Seeds 5c each.	
Large plants.....	1.00
Smaller .....	.50 and .75
New Varieties—The following are offered as Howellii var. Nelson Nye, large, in- tensely ruffled rosette with light creamy pink to almost white flowers on long stems .....	.50
Millardii, large, handsome rosette of broad- ly spatulate leaves, slightly ruffled. Flow- er similar to L. Finchii and freely borne....	.50
Longifolia, leaves very long, narrow and thick only slightly ruffled. Flowers lemon yellow white to creamy pink borne on extra long stems. Distinctly different.....	.50
Mariana is of the evergreen rosettes variety, foliage dark in color, flower yellow and white with some pink, very striped. It is almost everblooming with me .....	.50
Crenuata, a dwarf variety of Howellii with a fine ruffling all along the leaf and light creamy pink to white flowers.....	.50
Decideous Varieties	
Rediviva (3) Bitter root, the state flower of Montana. This looks more like a beauti- ful pink waterlily than a desert plant. It is the first of this lovely family of west- ern plants and was discovered by Mer- riweather Lewis and is named for him. Thrives in dry soil .....	.15
All the following need moist soil until after blooming.	
Brachycalyx, very pretty pure white .....	.40
Seeds 5c each.	
Nevadensis, smaller than above .....	.15
Oppositifolia, similar to above but with flow- ering stems about six inches high.....	.15
Var. Richeyi, a new dwarf form more free flowering than the above .....	.25
Triphylla, very pretty but a well grown plant in bloom is not much larger over than a silver dollar. Pink flower.....	.15
Lewisia Species, fine distinct new ones not yet named. While they are in stock.....	1.00
Linum, Lewisii, wild flax with deeper blue flow- er than L. Perrene (20) .....	.25
Linnaea Borealis var. Americana, Twin Flower Vine .....	.15
Lupinus Lyallii (4), the tiny gray-leaved Alpine which blooms the whole season. Seed is best .....	.35
Minimus (9), very free blooming .....	.15
Ornatus (12), silver-leaved lupine.....	.35
Arboreus the beautiful tree lupine with yel- low flowers. Seeds only.	
Breweri, very dwarf with white leaves and nice blue flowers .....	.25

Chamissonis, blue tree lupine. Seeds only	
Rivularis, a tall variety growing by streams has long bloom spike and handsome bronzy leaves, seeds and plants.....	.35
Annual varieties are good for broadcasting and seed prices will be gladly supplied.	
Lupines are very good for roadside planting and for cut banks. They are good to hold soil with their long roots and are very hardy.	
Lithophragma affinis, white woodland star.....	.15
Tennella pink .....	.15
Lutkea pectinata (4), make a lovely green mat in a moist spot in rocks. Spreads quickly..	.35
Monardella villosa, a free flowering mint (7)....	.25
Micromeria Douglassii vine with scented leaves; nice in the rock garden .....	.15
Mertensia laevigata, a large blue bell (16).....	.35
Montia parvifolia, dainty white flower, always in bloom (6) .....	.15
Oenotheria tricocalyx, Desert Primrose; opens pure white and changes to pink. Sandy alkali soil, well drained in sun (6).....	.30
Sun cups; day blooming; yellow (10).....	.15
Oxalis oregana, pinkish and pretty.....	.15
Oreobroma—see evergreen Lewisias	
Paeonia Brownii, (8) our only native peonia and a dwarf adapted to a rock garden; large red flower .....	.50
Parrya (4) a pink flowered deep rooting plant found where there is some moisture on the edge of the desert. Seeds only.	
Pedicularis densiflora. Indian Warrior. Very handsome but hard to tame.....	.50
Pentstemon Azureus (8), a lovely flower freely borne .....	.35
Cardwelli (6), shrubby creeper, very free blooming, flower brightest blue .....	.50
Centranthifolius (36) scarlet bugler.....	.25
Cordifolius, climbing scarlet trumpeter. Seeds only.	
Corymbosus (18) shiny leaved shrub. Seeds only.	
Davidsoni, very dwarf, blue flower.....	.50
Glaber (8) larger flowered blue alpine.....	.50
Heterophyllum (15) very long blooming blue..	.25
Jaffrayanus (6) deep blue alpine. Seeds only.	
Laetus, medium blue (10) very hardy.....	.15
Menziesi (6) shrubby evergreen creeper with small round green leaves and blue flowers .35	
Rupicola (6) gray leaved shrubby creeper lovely rose crimson flowers, very nice.....	.35
Fruticosus (8) Lavender flowers .....	.35
Procerus, blue clustered penstemon.....	.25
Roezli deepest blue (15).....	.25
Speciosa (36) very long spike of lovely blue flowers .....	.25
Tolmei, a tiny dwarf of the clustered group from our highest peaks.....	.50
Phlox adsurgens (5) evergreen creeper with beautiful pink flowers, for shade.....	.25
Douglasi (3) Alpine phlox forms a dense mat covered with lovely flowers.....	.50
Hoodi equally low growing with white fl....	.50

Speciosa, slightly shrubby with sparse leaves but beautiful pink flowers.....	.35
Species from Klamath County, doubtless a variety of <i>P. Douglasi</i> but even more dwarf and compact with lovely pink and orchid flowers nearly hiding the deep green mossy plant (2) .....	.50
<b>Subulata</b> atropurpurea, not native but very good. Vivid, bright pink. Both are creepers and make a presentable plant when not in bloom and a mass of color covering the entire plant when blossoming in early spring .....	.25
<b>Decussata</b> , too tall for the rock garden as a rule but a very fine plant where height is right.	
Miss Lingard, pure white early bloomer with deep green shiny leaves (15) .....	.25
R. P. Struthers, deepest pink with red eye....	.25
Amy Gordon, named for my great grandmother and from her garden. Florets are small but are in large clusters on four foot stems. Color white tinted orchid.....	.25
Mixed seedlings, many colors, doz. \$1.00, ea. ....	.15
<b>Pipsisewa</b> ( <i>Chimaphila</i> ) Prince's Pine, hardy for cold and drouth and good for naturalizing under evergreens. Flower pink. Evergreen and much used for decoration. Also medicinal and can be supplied dried.....	.25
<b>Phoradendron</b> , mistletoe, berries in season, pk.....	.25
and sprays for decoration, post paid, per lb. ....	.25
<b>Potentilla anserina</b> , Silver Weed, creeper spreading by runners, fl. deep yellow .....	.15
Fruticosa, Cinquefoil, Shrubby with many nice yellow flowers (18) .....	.35
Gracillis, rather weedy but pretty (14).....	.15
Flabellifolia, a dainty and beautiful alpine....	.50
<b>Polemonium Carneum</b> (10) largest flowered of our Jacob's Ladders and of a beautiful pink .....	.35
Confertum var eximum very dwarf blue or white flowered alpine cutie. Seeds only.	
Occidentale (18) Needs a brookside place....	.35
Pulcherrimum (8) a very beautiful blue alpine form very free flowering at home in dry rock work.....	.35
<b>Ranunculus glaberimus</b> (4), Sagebrush buttercup deepest yellow flower, very early.....	.25
Californicus (12) very early bloomer.....	.15
Occidentalis (8), better than last .....	.15
Creeping double, only a few inches high. Spreads quite fast but very pretty. Not native .....	.10
<b>Ribbon</b> grass, bulbous, only grows 4 inches high and does not spread fast .....	.15
<b>Ribbon</b> grass, tall, pink, white and green.....	.15
<b>Rubus Nivalis</b> , rare creeper requiring acid soil and deep shade. White flower, red berries and crisp varnished leaves .....	.50
<b>Romanzoffia Californica</b> (6) for a mossy spot in shade. Flower white .....	.15

<i>Rudbeckia Californica</i> (50) a tall native with long glaucous leaves and lemon yellow flowers with high purple brown center....	.50
<i>Golden Glow</i> , double golden yellow (72).....	.10
<i>Purpurea</i> , purple cone flower (36).....	.25
<i>Saponaria ocymoides</i> , nice creeper with bright pink flowers. Spreads quite fast (4).....	.15
Double light pink fragrant (16).....	.15
Both are not native.	
<i>Shamrock</i> , brown clover from Ireland.....	.15
<i>Sidalcea Oregana</i> , tall wild hollyhock.....	.15
Californica, dainty pink fl. (10).....	.15
<i>Saxafraga Eastwoodiana</i> , moist, mossy rock-work in shade. Very rare .....	.75
Species with tiny brown notched leaves and pretty white flowers. Same situation as above .....	.50
<i>Mertensiana</i> (6) white flower .....	.15
<i>Peltata</i> (36) with very large round leaves suggesting the name of Umbrella Plant. Flower pink in large cyme, early in spring. Needs a water margin soil .....	.50
<i>Tolmei</i> , a dainty white flowered alpine with shiny beadlike foliage resembling a tiny sedum, found at base of glaciers. Roots very deeply so seeds are best.	
<i>Sedum divergens</i> , slender upright or reclining branching stems with beadlike leaves .....	.15
Var. Rattlesnake moss, larger than above both with starry yellow flowers .....	.15
<i>Douglasi</i> , tiny green rosettes, nice in winter running up 3 to 8 inches high with whitish flower. New plants form on stems of old and spread freely.....	.05
<i>Radiatum</i> , very similar to above but yellow flowered .....	.05
<i>Obtusatum</i> , thick whitish leaves turning bronzy in fall; flower white with red brown center. Sun, dry soil .....	.15
<i>Oreganum</i> , close rosettes of bright green turning reddish, yellow flower, best in shade .....	.25
<i>Nevadensis</i> , larger gray green rosettes with angled ends of leaves, flower white, red center; sun .....	.25
<i>Purdyii</i> , flat shiny rosettes of brightest green connected by red runners, yellow flower. One of our cutest sedums. Must have shade .....	.25
Species with equally flat gray green rosettes, larger and taller stems with starry yellow flower, shade .....	.25
<i>Spathulifolium</i> , a long name stretched to cover a multitude of variations. Often the last before and the two following. As we offer it the rosettes are small and white changing color with the seasons. Flower stems 2 to 4 inches and blossom nice yellow. Very good in sun or light shade on dry rocks or any place .....	.15
<i>Woodii</i> , very small with deeper yellow flowers .....	.25

Cape Blanco, very white larger rosettes with light yellow flowers from sea cliffs, sun or shade .....	.15
Stenopetalum, low growing yellow flowered for sun .....	.15
Species, green, thick leaved, low growing with red margin in spring and silver line in autumn .....	.25
Species gray green blossom stems thickly leaved appearing to be a button string, flowers pink .....	.25
<b>Sedums not native here</b>	
Sedums acre, mossy green carpeter at blossom time, pure gold almost without a touch of green .....	.15
Acre minor, still smaller .....	.15
Angelicum, tiny flat carpeter, pinkish fl....	.15
Altissimum treelike with yellow flower (8)....	.15
Brevifolium, very tiny glaucous foliage.....	.15
Glaucum, tiny gray, bluish foliage, white flower .....	.15
Coccineum, white flower, leaves turn red....	.15
Kamtschaticum larger (4) with orange flower .....	.15
Kamtschaticum variegatum, green and white leaves .....	.15
Reflexum cristatum, upright grower, very odd .....	.15
Sexangulare, a tiny angled one with yellow flowers .....	.15
Spectabile, Live For-ever, tall, pink fl.....	.15
Stellaris, a nice little one with white flower .....	.15
Spurium, white flower, broad notched leaves	.15
Spurium coccineum, red flowered (6).....	.15
<b>Sempervivems, not native here, but a very fine group of plants for the rock garden.</b>	
They do not compare favorably with Lewisias from any point except hardiness and rapid increase but they are of the very best in those. Each.....	.15
Arenaria, bright green, tinted red in winter	
Atrapurpureum, very large purple rosettes.	
Fimbriatum, slightly hairy.	
Laggeri, larger cobwebs or with pink flower.	
Pallidum, light blue green	
Tectorum, old stand by Hen and Chickens	
Violaceum, deep purple.	
The seven varieties .....	\$1.00
Twelve unnamed varieties .....	1.00
<b>Scutellaria angustifolia</b> is not the large plant its name implies. It is only about six inches high, with a deep blue flower.....	.15
Tuberosa, still small with light blue flower ...	.15
<b>Silene Hookeri</b> downy leaved fringed pink. Salmon pink needs deep soil among rocks .....	.25
White form of above, very rare .....	.50
Ingrami, sometimes considered a variety of S. Hookeri, but taller and very deep pink..	.35
Californica, brightest red, very showy.....	.25
<b>Sisyrinchium Bellum</b> , blue-eyed grass, moist soil .....	.15
Californicum, similar, but yellow .....	.15

<i>Grandiflorum</i> , larger, satiny, spreading bells of a beautiful crimson-purple, sun .....	.15
<i>Grandiflorum</i> var. with light pink flowers, sun .....	.15
<i>Solidago elongata</i> , golden rod .....	.15
<i>Spergula</i> , green mossy carpeter with white flower .....	.25
<i>Spragua umbellata</i> , pussy-paws, grows flat on the ground, flowers white to red, water- melon scented .....	.15
<i>Multicaps</i> , many headed or rosetted. Turns a nice reddish color .....	.25
<i>Synthyris rotundifolia</i> (3) Hope o'Spring, Sleigh- bell, or Spring Queen, all names of a well- loved little blue flower which comes first of all .....	.15
<i>Reniformis</i> (6), more showy light blue flower. Both plants very nice and like shade.....	.35
<i>Sweetseri</i> , var. of <i>rotundifolia</i> with long leaves and deep blue flower.....	.35
<i>Talinum spinescens</i> , very dwarf plant for dry rock garden in sun. Flowers freely borne and very dainty pink.....	.35
<i>Tellima odorata</i> , (12) large begonia-like leaves..	.15
<i>Tiarella unifoliata</i> , spray of tiny white flowers, prefers moist shade .....	.15
<i>Trientalis latifolia</i> , pink star flower, a tiny pri- mula .....	.15
<i>Thymus</i> , the old fashioned thyme not native with us but so good we have adopted it. Creeper in winter with dainty lavender fl... .10	
<i>Citriodorus argenteus</i> silver and white (6)....	.25
<i>Citriodorus aureus</i> , green and yellow leaves....	.25
<i>Langinosus</i> , wooley prostrate foliage, pink fl.	.25
<i>Tradescantia virginica</i> , blue, native in Wisconsin .....	.25
Pale blue from Texas (9) .....	.25
<i>Brevicaulis</i> , pink (6) .....	.25
<i>Valeriana sylvatica</i> (9) pinkish, more dwarf and better than <i>V. stichensis</i> . We can sup- ply both .....	.35
<i>Vancouveria chrysantha</i> , leathery leaves yellow flowers .....	.25
<i>Hexandra</i> ferny leaves, white flowers .....	.25
<i>Veronica incana</i> , white downy foliage, deepest blue flower (4) Not native here.....	.25
<i>Viola adunca</i> , blue, very long blooming.....	.15
<i>Blanda</i> , tiny white .....	.15
<i>Brooksi</i> , yellow, dry rock garden.....	.25
<i>Chrysantha</i> or <i>Douglasii</i> , deep yellow.....	.25
<i>Cuneata</i> , one of the cutest violets. White with blue eyes and back.....	.25
<i>Hallii</i> , sweet-scented purple and cream. Our finest native violet.....	.25
<i>Palustris</i> , pink and lilac, for wet meadow....	.25
<i>Pedunculata</i> , Yellow Pansy, a very fine deep color .....	.25
<i>Nuttallii</i> , Downy Johnny Jump-up.....	.15
<i>Praemorsa</i> , similar to above, but a paler color and less free-blooming.....	.25
<i>Occidentalis</i> , long-stemmed white, for water margin only .....	.25
<i>Glabella</i> , yellow .....	.15
<i>Lobata</i> , yellow .....	.25
<i>Sarmentosa</i> , creeping, yellow.....	.15

Sheltonii, cut-leaved, yellow.....	.15
Trinervata, a rare lavender variety from Eastern Washington.....	.35
Howelli, very near adunca, but of a deeper blue and very long flowering.....	.25
Langsdorffi, light blue for moist soil and deep shade (6) very rare and lovely.....	.35
Not native here	
Alpina, deepest dark blue, pansy foliage.....	.25
Papilionacea, nice purple blue, very thrifty....	.15
Papilionacea var. priceana, white Peacock violet .....	.15
Prince of Wales, nice long stems on these and the last two flowers very large, pur- ple .....	.25
Odorata, purple blue sweet scented.....	.15
White sweet scented, early.....	.15
Czar, nice single white, medium length stems, very free flowering.....	.25
Canadensis, white violet from Oklahoma....	.15
Veratrum, a tall (60) plant with broad leaves and large cluster of white flowers belong- ing to the lily family, seeds. Roots.....	1.00
Xerophyllum tenax, Elk Grass, Squaw grass, a beautiful shiny grass with a flower like a white plume three to five feet high. Good plants .....	.75 to 1.00
Zauschneria Californica, often called hardy fuchsia Bright scarlet flower late, in bloom to frost. This is a spreading vine that will cover a larger space in dry rock gar- den .....	.35
Latifolia just slightly more yellow a shade of scarlet and of upright growth.....	.35
Makes a neat little shrublet in form.	
Cana, (microphylla) smaller with very downy leaves. For dry rock garden (8)....	.35

#### NATIVE BULB PRICE LIST

Bulbs of all kinds are best planted in the fall. The small bulbs can be supplied by Sept. 1, and the larger lilies by Oct. 15 or sooner.

Lilium, Washingtonianum, a very fine white to pink lily. There are many variations to this lovely lily and the most common is called the Mt. Hood Lily. We can supply this and the larger form called Wash- ingtonianum purpureum. Give them very excellent drainage .....	.50
Smaller bulbs.....	.30
Washingtonianum minor, Shasta Lily, simi- lar to above but with smaller bulbs and slender stems, price each.....	.30, .50 and .75
Rubescens, the Redwood lily, white to pur- ple .....	.40
Kelloggii, pink. Good.....	.75
Humboldti, a splendid yellow lily; prefers well drained clay soil.....	.60
Humboolti magnificum, even better; spotted with red .....	.75
Columbiana, a nice small yellow lily.....	.30
Roezlii, crimson, stem slender, leaves crowd- ed; wet soil .....	.50

Roezlii, orange, similar to above.....	.50
Pardalinum, closely related to the latter.....	.40
Parryi, a very nice yellow lily, requires moist soil; rare .....	.50
Bolanderi, a small deep red lily suitable for the rock garden .....	.75
Occidentale, extremely rare red lily; moist location .....	1.00
<b>Seeds</b> —We strive to secure all the seeds we can of these and other native lilies. Price per pkt....	.25
Frices on larger quantities on request.	

**BULBS FOR THE ROCK GARDEN**  
**Dry Soil in Sun Unless Otherwise Stated**

Allium Acuminatum (6), deep red.....	.50
Falcifolium (3), large flower, bright red.....	.50
Mixed, many kinds and colors.....	.40
Unifolium, lavender pink.....	.50
Cernuum, nodding onion.....	.60
Falcifolium var. demissum.....	.50
<b>Brodiaea congesta</b> (16), blue flower.....	.60
Coccinea (14), the firecracker flower.....	1.00
Grandiflora (coronaria) harvest brodiaea. This hardy midsummer bloomer rivals the gentians for color. A wonderful blue.....	.40
Lactea (12), white with green stripe.....	.50
Laxa, large blue flower.....	.50
Ixoides (6), yellow with purple stripe.....	.75
<b>Camassia Esculenta</b> (12) light blue wild hyacinth .....	.50
Leichtlini (16), deep blue hyacinth.....	.50
Leichtlini alba, white hyacinth (3).....	1.00
<b>Calochortus</b> are the wild tulip of the west and are more varied and charming than the tulips of Holland. They will grow well under almost any garden conditions and are excellently well adapted to the rock garden. Care should be taken to keep them from irrigation in late summer as they are naturally dormant at that time.	

	Doz.
<b>Calochortus Amabilis</b> , deep yellow globe tulip...	.50
Albus, white Fairy Lantern, very dainty.....	.50
Amoenus, the beautiful pink fair lantern.....	.50
Lilacinus, very dainty one without hairs, moist soil .....	.50
Maweanus, cat ears, pink with hairs.....	.50
Mariposa types with large flowers on taller stems.	
Nitidus, hardy Mariposa from Idaho, lovely lavender, distinctly eyed (12-18).....	1.25
Macrocarpus, another hardy one, from Eastern Oregon; will stand 20 degrees below zero. Very tall plant, many lavender flowers .....	1.25
Vesta, white flowers usually tinted with lavender and pink.....	1.00
Venustus Citrinus, yellow with black eye.....	.50
Venustus El Dorado, colors varied from white to deep claret red; the very best....	.60

**Erythroniums** are very easy to naturalize in woodsy conditions and are good in the blub bed or the rock garden. They are a charming lily and often but erroneously called Dog Tooth Violet. Herberd Durand calls the spotted-leaved varieties Trout Lily, and John Muir calls them Fawn Lily. Both names are good. They are not fussy as to soil or situation and come readily from seed.

	Doz.
Giganteum, cream white.....	.50
Grandiflorum robustum, bright yellow.....	.60
Citrinum, cream turning pink, lovely.....	.50
Johnsonii, large pink, very fine.....	1.00
Hendersonii, lavender with maroon center.....	.50
Klamathensis, light lemon with pink tips.....	1.00
Parviflorum, light yellow.....	.60
Pink beauty, a fine new one.....	1.00

**Fritillarias** are at home in the rock garden.

All but Lancelota require well-drained situation and it is good anywhere.

	Doz.
Recurva or Red Mission Bell.....	1.00
Lancelota, green lily.....	1.00
Pudica, yellow bell .....	1.00

**Trilliums** prefer shade and moist soil. Good among ferns in a shady corner.

	Doz.
Sessile Chloropetalum, large white flower.....	1.00
Petiolatum, Rubrum, opens red.....	1.00
Ovatum, opens white and changes to red. Many most beautiful shades in a clump at one time. Large.....	.12, 1.00
Rivale, small and dainty. White specked with maroon. This is good in the rock garden as well as the moist shade.....	1.00

#### BOG GARDEN PLANTS

	Each
Aconitum Columbianum (36), purple monkshood	.15
Arguta rubra, white flower, red berries.....	.15
Asarum caudatum, wild ginger.....	.25
Aracea lysichiton, very large plant with yellow calla-like flower. Slightly bad odor, small. Each .....	.50
Larger .....	1.00
Cornus Candanese (3), Bunchberry, Partridge Berry .....	.25
Orchids.	
Habenaria dilatata (18).....	.25
Spiranthes romanzoffiana, Twisted Ladies' tresses .....	.25
Peramium decipiens, Rattle snake plantain, not too wet .....	.25
Epipactus Gigantea.....	.20
Mimulus Lewisia, the beautiful rose crimson monkey flower of our highest alpine water gardens (12).....	.50
Primuloides, very tiny yellow.....	.25
Luteus, sweet scented (10).....	.10
Parassia palustrus (12) dainty white flower.....	.35

<b>Pyrola bracteata</b> , glossy leaves and lovely pink flowers .....	.35
<b>Viola occidentalis</b> , palustris and blanda are at home in the bog garden and glabella, Howellii and Langedorffi on its margin. Prices elsewhere.	
<b>Japanese Iris</b> are water lovers and make a good back ground for the pool. We can supply the following named and have a nice lot of fine seedlings and lost name varieties we offer at 25c each or five for \$1.00	
Clarice Childs, petunia violet.....	.35
Eleanor Parry, Claret red.....	.35
Idzumi-gama, gray with blue lines.....	.35
T. S. Ware, reddish violet.....	.35
Yedo-jiman, dark royal blue.....	.25
Red Riding Hood, amaranth.....	.25

#### Other Water Irises

Siberica, deep blue or white.....	.25
Very tall deep blue.....	.25
Speiria monneri, tall yellow.....	.35

#### Water Plants and Lilles

Water poppy, small yellow flowers .....	.15
Nymphaea, three fine varieties.....	1.00
Nymphaea, mixed many varieties.....	4 for 1.00
Parrots feather, ferny.....	.25
Pickeral weed, upright grower (24) with bright blue flower.....	.25
Sagittaria, white flower, arrowhead.....	.15
Mossy pumice and waterworn or lava stepping stones can be supplied. Prices on request.	

## SHRUBS AND TREES

<b>Arbutus Menziesii</b> Madrone, broad-leaved evergreen, white flower, red berries in autumn. Price .....	.30 to 1.00
--	-------------

<b>Arotostaphylos</b> Manzanita, evergreen shrub with beautiful bell-shaped pink flowers. Hardy to zero .....	.30
Green Manzanita, deeper pink flowers.....	.30
Ura-Ursi, Red Bear-berry Berries, bright red .....	.25

<b>Azalea occidentalis</b> . This is easily one of the best three Western flowering shrubs, possibly being surpassed by its relative Rhododendron Californica and Romneya Coulteri for beauty of bloom. But it is so much hardier and more likely to succeed it is a much better investment. The flowers are very sweet scented and are freely borne for long season beginning the last of May. The milk white to yellow and pink flowers are in clusters often very large. The foliage is glossy and colors beautifully in autumn. They are deciduous and hardy but require a moist soil, acid preferred. Nice seedling plants, mixed colors .....	.30
Larger, prepaid .....	.50 to 1.50

Pink or yellow, ea.....	.50
and up, according to size. Small sizes of all 6 to 8 in. with plenty of root and branches.	
<b>Berberis or Mahonia</b>	
Aquifolium, tall Oregon grape, yellow flower, blue berry .....	.30 to 1.00
Nervosa, fern leaved, for shade.....	.30 to 1.00
<b>Cornus Nuttallii</b> , Pacific dog wood. Large pure white flower. Often blooms in autumn as well as early spring.....	.30 to 1.00
<b>Ceanothus Arboreus</b> , white flowered, broad leaved evergreen; makes small tree. Seeds only.	
Ceanothus Interrigimus, wild lilac, covered with dainty sweet-scented flowers of many colors, blue prevailing .....	.15
<b>Ceanothus Prostratus</b> , a lovely evergreen creeper, lavender .....	.50
<b>Ceanothus</b> , <b>Prostratus</b> var., divergenus, one foot high, lavender. Seeds.	
<b>Ceanothus Pumila</b> , very flat carpeter, varied flowers .....	.50
<b>Grossularie Roezli</b> , fuchsia flowered gooseberry..	.30
<b>Philadelphus Lewisia</b> , mock orange, scented white flower .....	.15
<b>Rhodendron Californica</b> , beautiful state flower of Washington. We can supply fine little seedlings of these carefully handled and well packed, but cannot warrant them to grow. Small plants 6 to 10 inches high, at 50c each. Larger at proportional higher prices. Very good plants with soil on roots, well mossed and burlaped at, each, f.o.b....	1.50
<b>Rosa Gymnocarpa</b> , nice little rose for rock garden .....	.30
<b>Spirea Opulaster</b> , nine bark, white flower.....	.30
<b>Spirea Ariaefolia</b> , Ocean Foam, Bridal Veil, lacy flower .....	.30
<b>Pachystima Myrsinifolia</b> , Oregon box or Mountain lover .....	.30
<b>Umbellularia Californica</b> . Oregon Myrtle, a beautiful tree and makes a valuable timber .....	.50
<b>Vaccinium mycrophyllum</b> , a tiny huckleberry, fine in rock garden .....	.30
<b>Vaccinium ovatum</b> , evergreen huckleberry, a lovely shrub and extensively used by florists for greens .....	.50
Seeds and seedlings of the following forest trees:	
<b>Acer Macrophyllum</b> , large-leaved soft maple.....	.30
Circinatum, vine maple .....	.30
<b>Abies Nobilis</b> , noble fir.....	.50
Magnificum, Shasta fir .....	.30
<b>Quersus Garryana</b> , Oregon white oak.....	.30
Kelloggii, California black oak.....	.30
Wislizenii, live oak .....	.50
<b>Pinus Lamberiana</b> , sugar pine. Seeds only.	
Cones, very large, each .15, .25, and .50, according to size. Monticola, Ponderosa and Jeffreyi pines, seeds. Cones, .10 ea. post paid.	

<i>Taxus Brevifolia</i> , Western Yew, a lovely tree for moist shade; nice for bog garden.....	.30
<i>Pseudosuga taxifolia</i> , Douglas fir 8 to 12 inches .....	.30
<i>Libocedrus decurrens</i> , Incense cedar.....	.30
<i>Picea Englemanii</i> , good for moist soil.....	.30
<i>Chamaecyparis Lawsonii</i> , Port Orford cedar, Lawson's cypress; a beautiful tree for moist soil; shade preferred.....	.50
<i>Juniperus occidentalis</i> , quite slow growing ever- green from the cold, dry interior, small, each .....	1.00
Communis var. <i>Montana</i> , a beautiful ever- green creeper, fine in rock garden, ea.....	.75
<i>Empetrum nigrum</i> , black crow berry, creeper.....	.50
<i>Artemisia tridentata</i> , the smelly Sage brush of the Western plains, interesting .....	.50
<i>Spinescens</i> , bud sage, a nice dwarf that is desirable for the rock garden .....	.50
<i>Sambucus glauca</i> , blue Elderberry, makes nearly a tree with edible berries.....	.50
Racemosa, red Elderberry, not edible.....	.50
<i>Synphoricarpus albus</i> , Snowberry, small shrub.....	.15
Mollis, training form of above .....	.15
<i>Honeysuckle</i> , Trumpet woodbine with large clusters of orange-red flowers.....	.35
<i>Lonicera hispidula</i> var. <i>Californica</i> , not so snowy as the last .....	.35
<i>Vitis Californica</i> , wild grape. A high climber, small tasty grapes that make a wonder- ful jelly. Leaves color beautifully in au- tumn .....	.25
Creepers that spread and spreaders that creep and soar more or less.	
<i>Gypsophila repens</i> , white flowers.....	.15
<i>Gypsophila repens</i> , rose, and deep pink flowers.....	.15
<i>Kenilworth ivy</i> , very small with lilac flowers.....	.15
<i>Nepeta hederacea</i> , creeping Charlie, a flat car- pet, best in shade, blue flowers.....	.10
<i>Vinca major</i> , a rampant green leaved blue flow- ered vine, that will soon cover any moist shady spot. Not hardy much below zero.....	.15
Minor, smaller with lavender flowers.....	.15
Variegata, cream and green leaves with pretty blue flower. Not too lively a spreader .....	.15
<i>Linnaea borealis</i> makes a lovely carpet where there is some moisture and shade. Does not spread too fast .....	.15
<i>Oxalis corniculata</i> var. <i>atrupurpurea</i> , yellow flower, red purple foliage .....	.10
Dwarf, but not creeping, sometimes called Shamrock. Is of European origin.	
<i>Oenothera</i> species from Louisiana, but proved hardy at 14 degrees below zero. Spreads underground very rapidly in good soil. Flower a very dainty pink cup in bloom all summer. May be planted in bottom- less pot to prevent spreading.....	.15
<i>Dicentra formosa</i> , while not a creeper is a rapid spreader and fine in a shady spot where ferny foliage and continuous pink flowers are desired .....	.15
<i>Veronica spicata</i> (15) bluest blue.....	.15

<b>Veronica species (6)</b> lavender blue.....	.15
<b>Hemerocallis flava</b> , Lemon lily. You'll not care if this does spread, it's so pretty. It is a nice clear yellow.....	.25
<b>Fulva</b> flower, burnt orange foliage luxuriant, spikes 3 to 4 ft. A rapid spreader.....	.15
<b>Hesperis matronalis</b> , Sweet Rocket, sweet-scented, lavender-purple flower, early spring (3). Seeds. Spreads.....	.10
<b>Feverfew</b> , double white, seeds itself.....	.10

### MINTS AND HERBS

<b>Catnip</b> , peppermint, spearmint, horehound Yerb Buena, dried 2 oz. 15 per root.....	.15
<b>Uva-urai</b> , Price's pine.....	2 oz. .15
We are often asked what to plant while the newly set perennials get started and after early bulbs are bloomed and gone.	
<b>Virginia Stocks</b> are very good as they are very small and bloom quickly. 100 seeds.....	.05
<b>Eriogonum (Oregonium) vimineum</b> a pink flowered annual that cuts as nicely as a statice, holding its color well. 100s .....	.05
<b>Portulacca</b> is also very nice in full sun, single varieties we like best. Per pkt. .....	.05
<b>Viola Alpina</b> is very quickly in bloom but spreads very freely by seeds.....	.05
We live mostly on the beauties we work among but we do sometimes use food. Here are some of our favorites.	

For the Bog Garden we can also supply Cat-tails, rushes and water grasses, but feel we should say again that they are spreaders, indeed. Per clump .....

### VERY RARE PLANTS

When ordering from this list please make some extra selections or allow us time to get the plants if we are out, as our stock is small.

<b>Achlys Triphylla</b> , Sweet-after-death from the lasting perfume of the leaves when picked. Shade .....	.25
<b>Hesperochiron Californica</b> , one of our rarest and most beautiful alpines. fl. pure white to rose-mauve .....	.50
<b>Allium amplectens</b>	
Fimbriatum, pink and purple .....	.40
Validum. Large swamp onion.....	1.00
<b>Brodiaea Douglasi</b> , light blue .....	.50
Laxa candida .....	.60
Nye's new dwarf blue, similar to B. Stellaris, many flowers on short stems for rock gardens .....	.60
Pulchella, lavender purple .....	.60
<b>Calochortus Clavatus</b> , Golden Bowl, one of the finest we've seen .....	1.50
Oculatus, much varied in color.....	.60
Splendens, lavender with darkeye.....	.60
Tolmei .....	.50
Venustus roseus, pink.....	.75
Purpureascens. Purple .....	.75

<b>Dentaria Nyes</b> , New, deep rose, smooth oval tubers, each .....	.25
<b>Erythronium Californicum</b> , cream.....	.50
Revolutum, pink, fine.....	.75
Toulumnensis, yellow .....	1.00
<b>Liliums</b> . We have below some lilies to offer you that are so new we cannot give them a name that may not hereafter be changed.	
Peacock Lily is probably a hybrid of Columbianum x Bolanderi. Flower fine deep red, barely recurved, foliage handsomely bronzed with height of a tall Columbianum, seeds, pkt. ....	.50
Bulbs .....	5.00
Del Norte Lily. This may be the lost L. Howellii. It is orange to red and is a hillside lily with a bulb like L. Bolanderi, flower larger and more open bell shape slightly recurving. Seed, pkt. ....	.50
Bulbs .....	5.00
Siskiyou Lily. This may be L. Pardalinum Johnsoni, very recently found in Canada. It is a pure rich yellow with very small dark specks, revolute and a moist soil plant. Seeds, per pkt. ....	.40
Bulbs, in limited number only.....	\$5.00
I have been unable to obtain a botanic description of the Canadian lily as it was only offered for sale first this year, by an English firm. We hope to have another new lily to offer in a few months. If interested let us hear from you.	
<b>Cypripedium pubescens</b> , yellow lady-slipper from N. Carolina, each .....	.50
<b>Gentiana Andrewsi</b> , closed gentian.....	.25
<b>Dicentra Glauca</b> , pink flowered.....	.50
Chrysanthia, yellow, rare .....	.50
Cucullaria, Dutchman's breeches .....	.25
Parviflora, our rarest alpine .....	1.00
Uniflora, very tiny .....	.35
<b>Disporum Hookeri</b> , Oreganum and Smithii, ferny plants for bog borders, each .....	.25
<b>Diplacus aurantiacus</b> , shrub mimulus with orange flowers for dry rocks .....	.50
<b>Mimulus cardinalis</b> , fiery scarlet, for wet soil.....	.25
Guttatua, large clear yellow.....	.10
Mertensia oblongifolia, lovely dwarf .....	.50
<b>Narthacium Californicum</b> , yellow bog asphodel (24) .....	.25
<b>Tolfieldia occidentalis</b> , white .....	.25
<b>Uvularia Grandiflora</b> , Merry bells .....	.25
<b>Adiantum pedatum</b> , five finger fern.....	.35
Emarginatum .....	.50
<b>Aspidium spindulosum</b> var. dilatatum.....	.35
<b>Aspidium Nevadense</b> , Sierra water fern, sweet scented, for moist place .....	.50
<b>Asplenium trichomanes</b> var. <i>vespertinum</i> dwarf Spleen wort, very cute.....	.35
<b>Pellaea Breweri</b> .....	.50
Ornithopus, bird's foot fern .....	.35
Andromedaefolia, coffee fern .....	.35
<b>Polystichum aculeatum</b> , bristle fern.....	.50
Scopulinum, dwarf alpine fern .....	.50

Woodsia scopulina, small alpine .....	.50
Polypodium Scouleri, leather leaf fern.....	.25
Botrychium silaifolium var. Californicum, Grape fern for bogs .....	.50
 <b>Goose Wheat.</b> This wheat was found in a wild goose's craw. Kernels were so large they were planted. It has proved immensely productive and we can now offer oz. packets for fall delivery at.....	.25
Bean, White Kentucky Wonder, pkt.....	.05
Bean, Brown Manchurian Bayou, a hardy, early bearing bean for winter use, that cooks easily and is of extra quality 4 oz. .10 Pkt. ....	.05
Sweet corn, tender gold. This is truly the best we have ever eaten, fresh or dried. It is early and bears heavily. 1/2 lb.....	.30
Pkt. ....	.05
Squash, Table Queen, for baking these are fine. Small but many on a vine and keep well .05	
<b>Field Corn.</b> Early Missouri Dent. prolific and early. Lb. ....	.25
Pkt. ....	.05
<b>White Early Dent,</b> the earliest dent corn we have ever tried. It was planted with the last sweet corn for late crop and matured perfectly. Our elevation is over 2400 ft. and our nights cool. We have only a limited amount of either of these good corns to offer this spring but will have plenty next year. Lb.....	.25
Pkt. ....	.05
<b>Golden Groundcherry.</b> We have grown this for fifty years and are often told it is better than yellow groundcherry usually is. We make them into pies and sauce as well as preserves. Sow where it is to grow. Pkt. .05	

#### ROCK GARDEN LORE

For many years I tried with small success to grow wild flowers. Then I learned of the rock garden idea. I began at once with an apron full of rocks and a bucket of dirt. It was a success and a joy from the first. Drainage is one of the most essential points. Arrange your rocks to allow drainage and to conserve moisture. Always use acid soil for wood dwellers and alkaline for desert plants. If your soil is heavy or clay, use crushed gravel, broken crockery, brick or plenty of sand. Peat moss is highly recommended but I have not yet tried it. If you collect your own plants carefully note whether they grew in sun, shade, wet or dry, soil black, leaf mold or sandy and duplicate these in its new home in your garden. If you buy your plants, read the requirements given in the catalog and heed them. It is a great deal more fun to succeed than to fail. Wishing you all success I am,

Sincerely and Cordially yours,

Clarice Nye, Prospect, Oregon.
